

Clann Aire

Curriculum Statement

Clann Aire community crèche, Pre-school and Afterschool provide a play-based curriculum. We aim to offer an inclusive and child-lead approach for all the children within our services.

In line with our Ethos of the service, our centre incorporates the values and aims of both the Aistear and Siolta National frameworks- It's a curriculum based on active learning allowing children to become engaged in play and exploration through self-initiated activity. In the care of trusted adults, working in partnership with parents/guardians, carers and trained staff.

Each room has their own curriculum statement, which outlines their current children's interests and needs, in line with their age and stage of development.
